OBJECTIVE

A front-end developer with extensive experience in building responsive websites and web applications. I am experienced in working with HTML, CSS, JavaScript, and React.js. I have a passion for creating user-friendly interfaces and strive to build websites that are both visually appealing and easy to use. I have a strong understanding of front-end development technologies and principles of user experience design.

To contribute my experience and problem-solving skills to achieve the organizational goals and objectives by going the extra mile and exceeding my employer's expectations.
